INTRODUCTION

The shimmer is always theredancing on the surface. It takes center stage. You see it when you walk in the front door, from the kitchen, living room, master bedroom, and as you decompress on the back deck. It beckons you to engage in a lifestyle of play and wonder. Moonlit canoe floats, post workout dips, or floating on a tube in the hot sunall are beyond remarkable, and as accessible as it gets. To be lucky enough to own a contiguous property to Limestone Pond is truly rare. 11 properties share its border. As a riparian corridor, your property invites all forms of wildlife. Sit in the hot tub, admire the surrounding Zen garden, and BeHereNow. The house features Eucalyptus hardwood floors found throughout the living area, and travertine stone tiles in the master bath. In the kitchen there are granite and glass recycled countertops, hickory cabinets, and custom David Regan tile. Wood stoves are found upstairs and on the lower level. The lower level has its own separate entrance along with a kitchenette, perfect for out of town guests. The sought-after south east side of Bozeman is known for its quick access to schools, trails, and downtown. On this quiet street is the rare opportunity to own the ideal Bozeman property. Are you going to make it happen?

GALLATIN COUNTY

Located in a sweeping valley in the heart of the Rocky Mountains, Gallatin County is the most populated and fastest growing county in scenic southwest Montana. Gallatin Valley has a rich history. Native Americans referred to this area as the “Valley of Flowers”. The name seems appropriate because of the great variety of wild flowers found on the mountainsides as well as in the valley. Gallatin Valley derives its name from the Gallatin River, one of the forks of the Missouri river that rises in Yellowstone Park. The Gallatin river, Jefferson river, and Madison river all merge at the town of Three Forks to form the Missouri River. Lewis and Clark named the rivers on their famous expedition to this part of the world in 1805.

There are approximately 1,682,048 acres (2,500 square miles) in Gallatin County including over 16,500 acres in surface water. Approximately 800,000 acres in Gallatin County are owned by the public and managed by several local and national agencies including the Bureau of Land Management, U.S. Forest Service, National Park Service, Montana Fish Wildlife & Parks, Montana Department of Transportation, Department of Natural Resources & Conservation and various local governments. The U.S. Forest Service is the largest land holder in Gallatin

County, currently managing over 665,000 acres. In addition to the Forest Service, various state departments manage approximately 61,000 acres. The Bureau of Land Management holds just over 9,000 acres and an additional 1,600 acres belongs to local governments. On the southern edge of Gallatin County is Yellowstone National Park. Yellowstone National Park is one of the world’s primary wildlife preserves and has the greatest concentration of geysers and hot springs in America. Yellowstone National Park is 2,219,789 acres in size (Larger than Rhode Island and Delaware combined). Over 97,600 acres of Yellowstone National Park is located within Gallatin County.
