INTRODUCTION

Deer Creek Road is the apex of quiet luxury, nestled at the base of the Bridger Range. This two-bedroom, two-bathroom mountain retreat provides unobstructed views of the valley and is only a ten-minute commute from Downtown Bozeman. Entertainers, take note! Designed with hosting in mind, the open living, kitchen, and dining areas are intentionally appointed to unify the chef and the guests with a high seating area in the kitchen, a designated dining area (adjacent to the wood-burning fireplace,) and defined living room space with vaulted two-story ceilings accented with exposed wood beams. The main level is additionally bathed in natural light and stunning views and provides indoor/outdoor entertaining with a nearly wrapping second-story deck. Perfectly situated on a twenty-acre homestead, this property was built to serve as a peaceful mountain retreat or could transition to a guest house for a potential future additional home. The septic system is permitted to allow for the addition of a five-bedroom home to complement the existing two-bedroom house. The well was strategically placed on the property to serve both homes efficiently. Enjoy the benefits of mountain living, including a barrel sauna, wildlife viewing, and breathtaking views, with easy access to Bozeman City, just minutes from your doorstep.

GALLATIN COUNTY

Located in a sweeping valley in the heart of the Rocky Mountains, Gallatin County is the most populated and fastest growing county in scenic southwest Montana. Gallatin Valley has a rich history. Native Americans referred to this area as the “Valley of Flowers”. The name seems appropriate because of the great variety of wild flowers found on the mountainsides as well as in the valley. Gallatin Valley derives its name from the Gallatin River, one of the forks of the Missouri river that rises in Yellowstone Park. The Gallatin river, Jefferson river, and Madison river all merge at the town of Three Forks to form the Missouri River. Lewis and Clark named the rivers on their famous expedition to this part of the world in 1805.

There are approximately 1,682,048 acres (2,500 square miles) in Gallatin County including over 16,500 acres in surface water. Approximately 800,000 acres in Gallatin County are owned by the public and managed by several local and national agencies including the Bureau of Land Management, U.S. Forest Service, National Park Service, Montana Fish Wildlife & Parks, Montana Department of Transportation, Department of Natural Resources & Conservation and various local governments. The U.S. Forest Service is the largest land holder in Gallatin

County, currently managing over 665,000 acres. In addition to the Forest Service, various state departments manage approximately 61,000 acres. The Bureau of Land Management holds just over 9,000 acres and an additional 1,600 acres belongs to local governments. On the southern edge of Gallatin County is Yellowstone National Park. Yellowstone National Park is one of the world’s primary wildlife preserves and has the greatest concentration of geysers and hot springs in America. Yellowstone National Park is 2,219,789 acres in size (Larger than Rhode Island and Delaware combined). Over 97,600 acres of Yellowstone National Park is located within Gallatin County.
