INTRODUCTION

Don't judge a book by its cover AND don't decide how big a property is just by looking at it from the outside! This is a sleeping giant! When you see it, you'll discover, this property goes on for days! The living room, kitchen and dining flow together like three forks of a river: each one a unique space but intimately connected. Float from the front door through the living room, past the gas fireplace, into the kitchen with its stainless GE appliances, gas range, and middle island, and land in the dining area adjacent to the sliding doors with southern exposure. Just beyond the powder room and laundry, the primary bedroom is tucked away with a walk-in closet and ensuite bath. Out the sliding glass doors, a fully fenced yard boasts mature shade trees and a gardening space. Upstairs are two full bedrooms with large closets on either side of a full bath. And, if all this weren't enough, the basement, wrapped with barn wood accents, has an additional 1,254sqft of space with a living room that runs the full length of the house, a bedroom, full bath, and a large storage room. Seller is offering \$17,500 in seller-paid credits towards buyer's discount points. Set up a showing today and come see what luxurious elbow room feels like!

GALLATIN COUNTY

Located in a sweeping valley in the heart of the Rocky Mountains, Gallatin County is the most populated and fastest growing county in scenic southwest Montana. Gallatin Valley has a rich history. Native Americans referred to this area as the "Valley of Flowers". The name seems appropriate because of the great variety of wild flowers found on the mountainsides as well as in the valley. Gallatin Valley derives its name from the Gallatin River, one of the forks of the Missouri river that rises in Yellowstone Park. The Gallatin river, Jefferson river, and Madison river all merge at the town of Three Forks to form the Missouri River. Lewis and Clark named the rivers on their famous expedition to this part of the world in 1805.

There are approximately 1,682,048 acres (2,500 square miles) in Gallatin County including over 16,500 acres in surface water. Approximately 800,000 acres in Gallatin County are owned by the public and managed by several local and national agencies including the Bureau of Land Management, U.S. Forest Service, National Park Service, Montana Fish Wildlife & Parks, Montana Department of Transportation, Department of Natural Resources & Conservation and various local governments. The U.S. Forest Service is the largest land holder in Gallatin

County, currently managing over 665,000 acres. In addition to the Forest Service, various state departments manage approximately 61,000 acres. The Bureau of Land Management holds just over 9,000 acres and an additional 1,600 acres belongs to local governments. On the southern edge of Gallatin County is Yellowstone National Park. Yellowstone National Park is one of the world's primary wildlife preserves and has the greatest concentration of geysers and hot springs in America. Yellowstone National Park is 2,219,789 acres in size (Larger than Rhode Island and Delaware combined). Over 97,600 acres of Yellowstone National Park is located within Gallatin County.
