INTRODUCTION

This is a darling Story Book style home built in 1930. It offers so much charm from the sloped roofline to the lighted house number, arched doorways, built in china cabinet, storage cabinets, bookcases and dressers. There are original hardwood floors throughout, even in the daylight basement. The home has been updated, remodeled and restored over the years to capture the essence of the architecture. There is Air Conditioning, a full yard sprinkler and drip system and Gas Forced Air heat. There is a main floor bedroom and full bath, living room, dining room, kitchen and butler's pantry. Upstairs is an additional 2 bedrooms, full bath and laundry as well as a full length attic access with tons of storage. The bathroom upstairs showcases an antique clawfoot tub and shower. In the lower daylight basement, the windows were made to be egress with 3' x 6' windows with railroad tie steps in the 2 good sized bedrooms. Both bedrooms have refinished original wood floors. The half bath is on one side and a shower room is on the other side of the apartment. There is a full kitchen and pantry that used to serve as a caterer's kitchen by a previous owner. There is another room that has been used as a family room and also houses the 2nd set of washer/dryers. The backyard is huge with a firepit, pergola with grapes, garden boxes with raspberries and plenty of space to entertain/enjoy the yard. There is a newer built huge garage that is extra wide and deep. It has 220' power inside for equipment and outside for a hottub. The upstairs of the garage has been framed for an ADU that was approved by the city at the time it was built. At that time, the city said a guest house could be built instead of the ADU if the alley was paved. Buyer to research what the city would currently allow.

GALLATIN COUNTY

Located in a sweeping valley in the heart of the Rocky Mountains, Gallatin County is the most populated and fastest growing county in scenic southwest Montana. Gallatin Valley has a rich history. Native Americans referred to this area as the "Valley of Flowers". The name seems appropriate because of the great variety of wild flowers found on the mountainsides as well as in the valley. Gallatin Valley derives its name from the Gallatin River, one of the forks of the Missouri river that rises in Yellowstone Park. The Gallatin river, Jefferson river, and Madison river all merge at the town of Three Forks to form the Missouri River. Lewis and Clark named the rivers on their famous expedition to this part of the world in 1805.

There are approximately 1,682,048 acres (2,500 square miles) in Gallatin County including over 16,500 acres in surface water. Approximately 800,000 acres in Gallatin County are owned by the public and managed by several local and national agencies including the Bureau of Land Management, U.S. Forest Service, National Park Service, Montana Fish Wildlife & Parks, Montana Department of Transportation, Department of Natural Resources & Conservation and various local governments. The U.S. Forest Service is the largest land holder in Gallatin

County, currently managing over 665,000 acres. In addition to the Forest Service, various state departments manage approximately 61,000 acres. The Bureau of Land Management holds just over 9,000 acres and an additional 1,600 acres belongs to local governments. On the southern edge of Gallatin County is Yellowstone National Park. Yellowstone National Park is one of the world's primary wildlife preserves and has the greatest concentration of geysers and hot springs in America. Yellowstone National Park is 2,219,789 acres in size (Larger than Rhode Island and Delaware combined). Over 97,600 acres of Yellowstone National Park is located within Gallatin County.
