## INTRODUCTION

Convenience and charm had a baby and called it 1014 East Babcock Street. She's as cute as a bug's ear and situated in a quiet and inviting neighborhood in East Bozeman--a location that offers unbeatable proximity to the peaceful promenades of Lindley Park as well as downtown Main Street and its robust dining and shopping scene. With its bright pops of primary colors serving as playful accents in an otherwise clean and contemporary home, the property exudes a welcoming energy and a seems to carry its own sense of joie de vivre - something that was notably absent before the gut remodel that the owner carried out in 2022. Now that she has all new plumbing, electric, doors, windows, siding (LP), countertops (quartz) and floors (oak) as well as a new water heater and laundry machines, the home looks and lives like new! The mature trees and addition of extensive landscaping on the property further adds to her curb appeal, while the impeccably curated interiors tell the story of the talented folk artist who currently lives there... but in a way that beckons any buyer to start imagining their own story unfolding in this special home.

# GALLATIN COUNTY

Located in a sweeping valley in the heart of the Rocky Mountains, Gallatin County is the most populated and fastest growing county in scenic southwest Montana. Gallatin Valley has a rich history. Native Americans referred to this area as the “Valley of Flowers”. The name seems appropriate because of the great variety of wild flowers found on the mountainsides as well as in the valley. Gallatin Valley derives its name from the Gallatin River, one of the forks of the Missouri river that rises in Yellowstone Park. The Gallatin river, Jefferson river, and Madison river all merge at the town of Three Forks to form the Missouri River. Lewis and Clark named the rivers on their famous expedition to this part of the world in 1805.

There are approximately 1,682,048 acres (2,500 square miles) in Gallatin County including over 16,500 acres in surface water. Approximately 800,000 acres in Gallatin County are owned by the public and managed by several local and national agencies including the Bureau of Land Management, U.S. Forest Service, National Park Service, Montana Fish Wildlife & Parks, Montana Department of Transportation, Department of Natural Resources & Conservation and various local governments. The U.S. Forest Service is the largest land holder in Gallatin

County, currently managing over 665,000 acres. In addition to the Forest Service, various state departments manage approximately 61,000 acres. The Bureau of Land Management holds just over 9,000 acres and an additional 1,600 acres belongs to local governments. On the southern edge of Gallatin County is Yellowstone National Park. Yellowstone National Park is one of the world’s primary wildlife preserves and has the greatest concentration of geysers and hot springs in America. Yellowstone National Park is 2,219,789 acres in size (Larger than Rhode Island and Delaware combined). Over 97,600 acres of Yellowstone National Park is located within Gallatin County.
