INTRODUCTION

Exceptional investment opportunity in one of Montana's fastest-growing markets. Located at 1714 S 19th Ave, this turn-key multifamily property features 32 fully renovated units across three buildings, just minutes from Montana State University, downtown Bozeman, and major commercial corridors. Each unit is approximately 800 SF and offers a 2 bed / 1 bath layout, thoughtfully updated with new luxury vinyl plank flooring, dual-pane windows, fresh interior and exterior paint (and siding), stainless steel appliances, butcher block countertops, new cabinetry, and modern lighting and plumbing fixtures. Residents enjoy ample off-street parking, landscaped green space, and proximity to public transit, shopping, restaurants, and recreational amenities. A strong professional management team is already in place, and once the remodel is complete (set for August 2025) the remaining units will be leased. With an average rent of \$1825 per unit, and with maintenance costs lowered significantly thanks to the substantial remodel, the complex stands to operate at a ~5% cap rate once complete. In the intermediate to longer term, there is considerable rental income upside as demand for apartments in the MSU/19th corridor continues to rise. This is a rare opportunity to acquire a fully modernized, stabilized asset with growth potential in a high-demand rental market.

GALLATIN COUNTY

Located in a sweeping valley in the heart of the Rocky Mountains, Gallatin County is the most populated and fastest growing county in scenic southwest Montana. Gallatin Valley has a rich history. Native Americans referred to this area as the “Valley of Flowers”. The name seems appropriate because of the great variety of wild flowers found on the mountainsides as well as in the valley. Gallatin Valley derives its name from the Gallatin River, one of the forks of the Missouri river that rises in Yellowstone Park. The Gallatin river, Jefferson river, and Madison river all merge at the town of Three Forks to form the Missouri River. Lewis and Clark named the rivers on their famous expedition to this part of the world in 1805.

There are approximately 1,682,048 acres (2,500 square miles) in Gallatin County including over 16,500 acres in surface water. Approximately 800,000 acres in Gallatin County are owned by the public and managed by several local and national agencies including the Bureau of Land Management, U.S. Forest Service, National Park Service, Montana Fish Wildlife & Parks, Montana Department of Transportation, Department of Natural Resources & Conservation and various local governments. The U.S. Forest Service is the largest land holder in Gallatin

County, currently managing over 665,000 acres. In addition to the Forest Service, various state departments manage approximately 61,000 acres. The Bureau of Land Management holds just over 9,000 acres and an additional 1,600 acres belongs to local governments. On the southern edge of Gallatin County is Yellowstone National Park. Yellowstone National Park is one of the world’s primary wildlife preserves and has the greatest concentration of geysers and hot springs in America. Yellowstone National Park is 2,219,789 acres in size (Larger than Rhode Island and Delaware combined). Over 97,600 acres of Yellowstone National Park is located within Gallatin County.
