INTRODUCTION

Exceptional income-producing 4-plex just blocks from downtown Bozeman. This well located property delivers immediate returns with a strong 7% CAP rate and the stability of long-term leases already in place across all units. The property features a highly desirable unit mix, including two 3-bedroom, 1-bath units (one with a detached garage) alongside two studios, capturing multiple segments of Bozeman's high-demand rental pool and helping mitigate vacancy risk. What truly sets this property apart is its proven short-term rental history. Previously operated as a successful Airbnb, all units are currently fully furnished and equipped including dishes, housewares, and operational essentials positioning a new owner to seamlessly transition back to short-term rentals if desired. The basement office and storage area further enhance this opportunity, offering the infrastructure needed to efficiently manage a furnished rental portfolio or hybrid model. Whether maintained as a stabilized long-term investment or repositioned for higher-yield short-term income, this asset delivers rare optionality. With Bozeman's continued population growth, limited inventory, and strong rental demand, this is a strategic acquisition for investors seeking both immediate yield and long-term appreciation. GALLATIN COUNTY

Located in a sweeping valley in the heart of the Rocky Mountains, Gallatin County is the most populated and fastest growing county in scenic southwest Montana. Gallatin Valley has a rich history. Native Americans referred to this area as the “Valley of Flowers”. The name seems appropriate because of the great variety of wild flowers found on the mountainsides as well as in the valley. Gallatin Valley derives its name from the Gallatin River, one of the forks of the Missouri river that rises in Yellowstone Park. The Gallatin river, Jefferson river, and Madison river all merge at the town of Three Forks to form the Missouri River. Lewis and Clark named the rivers on their famous expedition to this part of the world in 1805.

There are approximately 1,682,048 acres (2,500 square miles) in Gallatin County including over 16,500 acres in surface water. Approximately 800,000 acres in Gallatin County are owned by the public and managed by several local and national agencies including the Bureau of Land Management, U.S. Forest Service, National Park Service, Montana Fish Wildlife & Parks, Montana Department of Transportation, Department of Natural Resources & Conservation and various local governments. The U.S. Forest Service is the largest land holder in Gallatin

County, currently managing over 665,000 acres. In addition to the Forest Service, various state departments manage approximately 61,000 acres. The Bureau of Land Management holds just over 9,000 acres and an additional 1,600 acres belongs to local governments. On the southern edge of Gallatin County is Yellowstone National Park. Yellowstone National Park is one of the world’s primary wildlife preserves and has the greatest concentration of geysers and hot springs in America. Yellowstone National Park is 2,219,789 acres in size (Larger than Rhode Island and Delaware combined). Over 97,600 acres of Yellowstone National Park is located within Gallatin County.
