INTRODUCTION

Welcome to 359 Annie Glade Drive, a 2,895-square-foot brick home at the end of a quiet cul-de-sac in Elk Grove, an established Bozeman neighborhood with a trail system, parks, beach and pond. Updated and move-in ready. You notice the entry first. A brick arched doorway opens into a vaulted foyer with slate flooring that transitions to oak hardwood with walnut inlay. Nine-foot ceilings carry through the main level. The gas fireplace anchors the living room. The kitchen is the kind that actually works: quartz counters, tile backsplash, alder cabinetry, stainless appliances, a large pantry, and an island with seating. Both formal and informal dining options sit nearby. The main level also includes a large family room off the back to the kitchen and access to a covered back yard patio. Off the front entry you'll find a more floor office with closet and addition bonus storage. Upstairs, the master suite earns the name: en-suite bath with separate shower, jetted tub, dual vanity, and his-and-hers walk-in closets. Two additional bedrooms share a full bath and a bonus room above the garage gives you real flex space: gym, studio, playroom, or overflow to round out the upper level. Out back, the covered deck and porch look out over a large back yard leading to open space. No neighbors stacked against the fence line. The yard is landscaped and irrigated with underground sprinklers. You'll find the home in impeccable condition with fresh paint, new carpet, and updated kitchen. The work is done.

GALLATIN COUNTY

Located in a sweeping valley in the heart of the Rocky Mountains, Gallatin County is the most populated and fastest growing county in scenic southwest Montana. Gallatin Valley has a rich history. Native Americans referred to this area as the “Valley of Flowers”. The name seems appropriate because of the great variety of wild flowers found on the mountainsides as well as in the valley. Gallatin Valley derives its name from the Gallatin River, one of the forks of the Missouri river that rises in Yellowstone Park. The Gallatin river, Jefferson river, and Madison river all merge at the town of Three Forks to form the Missouri River. Lewis and Clark named the rivers on their famous expedition to this part of the world in 1805.

There are approximately 1,682,048 acres (2,500 square miles) in Gallatin County including over 16,500 acres in surface water. Approximately 800,000 acres in Gallatin County are owned by the public and managed by several local and national agencies including the Bureau of Land Management, U.S. Forest Service, National Park Service, Montana Fish Wildlife & Parks, Montana Department of Transportation, Department of Natural Resources & Conservation and various local governments. The U.S. Forest Service is the largest land holder in Gallatin

County, currently managing over 665,000 acres. In addition to the Forest Service, various state departments manage approximately 61,000 acres. The Bureau of Land Management holds just over 9,000 acres and an additional 1,600 acres belongs to local governments. On the southern edge of Gallatin County is Yellowstone National Park. Yellowstone National Park is one of the world’s primary wildlife preserves and has the greatest concentration of geysers and hot springs in America. Yellowstone National Park is 2,219,789 acres in size (Larger than Rhode Island and Delaware combined). Over 97,600 acres of Yellowstone National Park is located within Gallatin County.
