INTRODUCTION

The ultimate Bridger Canyon legacy property: 83 acres, two legal parcels, one established residence, and a second parcel poised for a future dream home. Grouse Creek Ranch is a rare Bridger Canyon retreat designed for those who want luxury living, mountain views, and serious equestrian infrastructure in one place. Set on 80 acres with sweeping views of the Bridger Mountains, the property pairs a 3,051 SF mountain rustic home with private horse and livestock facilities that are truly hard to replicate. Designed by Miller Roodell and built by SBC in 2019, the home blends reclaimed log, stacked stone, warm wood tones, and refined finishes throughout. The entry opens into cozy sitting rooms anchored by a wood-burning fireplace, while the kitchen was built for gathering with an oversized center island, corner dining nook, Wolf 6-burner dual oven range, dual sinks, wine refrigerator, Norsk Kleber wood stove, and sliding doors leading to the covered patio with a wood-burning fireplace and built-in grills. The primary suite offers a retractable TV, dual walk-in closets, laundry room, spacious bath with a large walk-in tile shower, and a peaceful screened porch overlooking the pond and Bridger Mountain views. A guest bedroom, 3/4 bath, living room, and oversized attached 2-car garage with epoxy floors, storage cabinets, workbench, and beverage fridge complete the home. The equestrian facilities are equally impressive, led by a heated 90 x 175 indoor riding arena with waxed sand footing, four stalls with outdoor runs, wash and tack rooms, and a lounge with kitchenette, Miele espresso maker, 3/4 bath, and laundry. Additional amenities include a livestock barn, eight paddocks with loafing sheds and auto-waterers, a 60 round pen, hay and tractor storage, and a greenhouse. Grouse Creek Ranch is a polished, highly functional Montana property where mountain living and equestrian life meet at a level rarely found in Bridger Canyon.

GALLATIN COUNTY

Located in a sweeping valley in the heart of the Rocky Mountains, Gallatin County is the most populated and fastest growing county in scenic southwest Montana. Gallatin Valley has a rich history. Native americans referred to this area as the “Valley of Flowers”. The name seems appropriate because of the great variety of wild flowers found on the mountainsides as well as in the valley. Gallatin Valley derives its name from the Gallatin River, one of the forks of the Missouri river that rises in Yellowstone Park. The Gallatin river, Jefferson river, and Madison river all merge at the town of Three Forks to form the Missouri River. Lewis and Clark named the rivers on their famous expedition to this part of the world in 1805.

There are approximately 1,682,048 acres(2,500 square miles) in Gallatin County including over 16,500 acres in surface water. Approximately 800,000 acres in Gallatin County are owned by the public and managed by several local and national agencies including the Bureau of Land Management, U.S. Forest Service, National Park Service, Montana Fish Wildlife & Parks, Montana Department of Transportation, Department of Natural Resources & Conservation and various local governments. The U.S. Forest Service is the largest land holder in Gallatin

County, currently managing over 665,000 acres. In addition to the Forest Service, various state departments manage approximately 61,000 acres. The Bureau of Land Management holds just over 9,000 acres and an additional 1,600 acres belongs to local governments. On the southern edge of Gallatin County is Yellowstone National Park. Yellowstone National Park is one of the world’s primary wildlife preserves and has the greatest concentration of geysers and hot springs in America. Yellowstone National Park is 2,219,789 acres in size(Larger than Rhode Island and Delaware combined). Over 97,600 acres of Yellowstone National Park is located within Gallatin County.
